

Week 1, June 15-20 – Ages 6 to 11 years

## CRAFT

This is a great picture frame craft because it is soooooo easy to make.

Stop by Youth Services for the card stock paper and colorful paper.

Fold the strip of card stock in half and then unfold.

Then fold the other 2 sides in to the middle and crease.

Then unfold ... now you should have 4 squares,  
just like the illustration above on the left.

Fold the middle 2 into a triangular-tent shape  
and then fold the two remaining squares together and paste in place.

Voila! Now you have a picture frame.

Cut out a different colorful piece of paper that is slightly larger than the photo.

Glue the photo in the center of that piece of paper.

Finally, glue that piece of paper on to the center of the frame, as pictured above.

Add stickers to decorate your frame or leave it plain.
