

Are we in the Future or is this Science Fiction?

Week 4, July 6 – 11

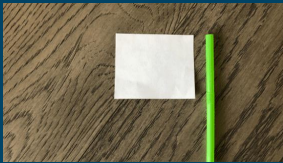

Cool Craft for Ages 6 – 11 years

Straw Rockets

You will need paper, a bendable straw, tape, scissors, and crayons to decorate your rocket.

1. Cut a rectangle from the paper
So it wraps around the straw and
is about 2 ½ inches long.

2. Wrap the paper around your
finger and tape it to make a

3. Fold the top of the tube
down and tape it closed.

4. You can stop at this point and use the tube
as your rocket! Just bend the straw, place
the tube on the short end, and blow!

5. Color your rocket
and cut it out.

6. Tape the tube to the rocket and place
on the short end of the straw. Blow hard
and watch your rocket “blast off!”

Have even more fun! Count down from 10 just like a real NASA rocket launch!!
